

Dear Caroline,

I hope you like to scare your sister because I'm going to tell you how.

First, you would have to make sure that you are wearing clothes that blend in with the couch. Second, you would get in the room where your sister is. Next, sneak quietly and hide behind something tall, for instance, like a couch or a book shelf. Then, approach closely and make sure they still can't see you. Now, if your sister hears something and comes in front of where you are, then breathe quietly. After that, make sure your sister goes back to her seat. Finally, quickly pop up and scream, "Boooo!"

Well, I hope you have a fun time scaring your sister.

Your friend,
Dora
