

Christy Mach

I grew up just a few miles North of Waco in the small community of Abbott. The elementary and high schools I attended were as small as they come with a six man football team, and on average, 20 students in the graduating class each year. You can imagine the culture shock when I began my career with Plano I.S.D.

I graduated with my Bachelors in Interdisciplinary Studies from A&M Commerce in 2003, and spent four years teaching Kindergarten prior to moving to Frisco. This is my second year at Bethany Elementary, and with the Plano school district. I had the privilege of teaching second grade last year, and will be moving up to third grade this year.

When I am not teaching I enjoy spending time with my wonderful fiancé, and our two Yorkies, Zoey and Ruger. I love spending time on the lake, cooking, shopping, and hanging out with friends. I also enjoy watching football (Cowboys all the way!) and basketball (Go Mavs!).

I can remember being a child, and how excited I would get at the thought of starting school each year. I can honestly say I still get that feeling now as a teacher. I am so blessed to be part of the Bethany community, and look forward to a fantastic year!
