

Getting Started

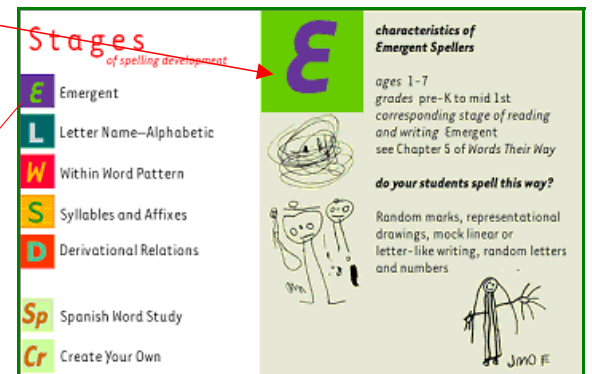

Words Their Way CD is a supplement to the book **Words Their Way: Word Study for Phonics, Vocabulary, & Spelling Instruction**. The CD contains a collection of word study activities divided into five stages of spelling development. The prepared activities print through Acrobat Reader in a non-editable format. Similar activities are included for Spanish language and literacy students. A "Create Your Own" section has prepared game board templates for use in making customized games.

Choose a Stage and Create an Activity

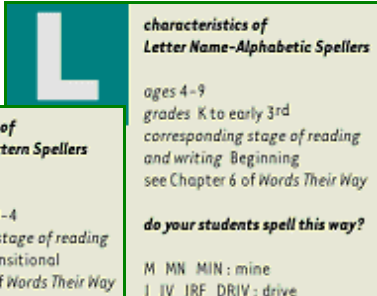

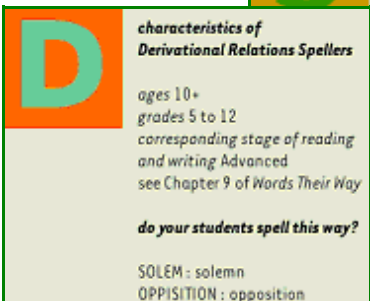

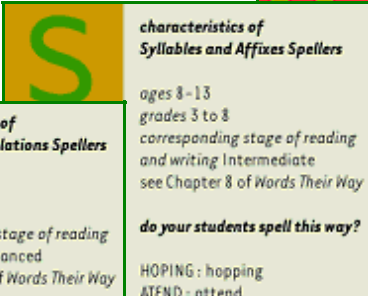

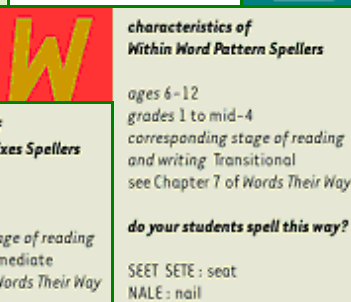

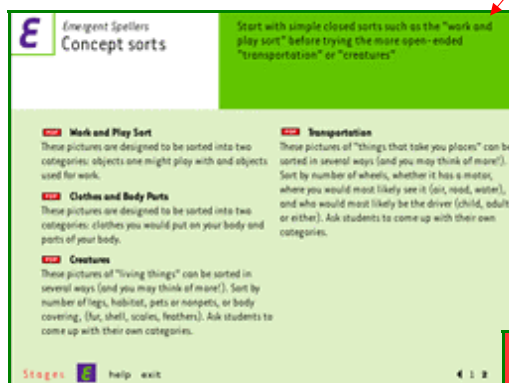

1. On the opening screen, click STAGES in the lower left corner to move to the table of contents.

2. On the STAGES screen, move the cursor over a letter block to review the key characteristics of that stage.

3. Click on the letter block to go to activity choices for that stage.
