

Danielle Eason

Hello, my name is Danielle Eason and this is my third year working in special education as a teacher's assistant. I graduated in 2006 from Trinity Christian Academy and I plan on enrolling in Collin College in January to further my education. I grew up with a younger sister that has CP, so I believe that she was my inspiration for being in this career. I love to spend my time with my friends and family doing our favorite things such as shopping, cooking, swimming and working out. When I'm not doing any of those things I love to crawl up in bed and watch a movie with my dogs Joker and Zoey.
