

Connie Gilmore

I am excited to be beginning my sixth year as part of the Bethany Bunch. Since graduating from the University of Mary-Hardin Baylor in 1993, I have spent the last eighteen years teaching and being taught by the little ones.

Kindergartners have a very special place in my heart. Their love of life is contagious. Their desire to learn to read and write is inspiring. Their sense of wonder at nature and the world around them gives me a desire to live life to its fullest. I cannot imagine doing any other job.

My husband and I have been blessed with a wonderful son and two special daughters. They are all adults now and each has married someone that has made our family even happier. We also have three granddaughters and three grandsons that I could spend hours telling you about.

Please know that it is an honor for me to work with your children. I hope they have a wonderful first year in school.

My favorite quote: "Even a little child shall lead them."
