

Cindy Graham

It's my honor and privilege to teach in the Plano School District. This will be my twelfth year to teach here at Bethany Elementary. In those twelve years, I have had the pleasure of teaching first, second, fifth, special education, and now third grade.

My family includes my husband of twenty-eight years, four children, one daughter-in-law, and one precious grand daughter. My oldest son and his family have recently moved back to the Plano area, after graduating from Texas Tech. My second son, is pursuing is a career in the music industry down in Austin. My daughter is attending eighth grade at a Frisco Middle School. All my children had the opportunity to attend and graduate from Bethany Elementary.

It was my mother, a teacher herself, who inspired in me the passion of teaching. It is my belief that ALL children are capable of succeeding in life, given a nurturing environment. I see this every day as my students learn to read, solve math problems, discover history, and explore science. I am grateful to be a part of the most rewarding profession in the world, **teaching**.
