

Jadrien Komnick

I am so excited to be a part of the fifth grade team at Bethany Elementary. I absolutely love working with children and the curriculum. Helping students discover the world around them and reach their fullest potential truly is a dream profession.

Last year, I moved to Plano from Edwardsville, Illinois (a suburb of St. Louis). I graduated from Southern Illinois University at Edwardsville with a degree in electrical engineering. After realizing that my heart is dedicated to the field of education, I decided to continue in school and earn a degree in elementary education. It was the best decision I have ever made!

In my free time, I enjoy singing and playing the violin. I also love to dance and am currently attempting to learn ballet on pointe. The pastime I treasure the most, however, is spending time with family and friends.

I am so happy to be at Bethany Elementary. This is going to be a great school year, and I look forward to working with everyone.
