

Paula McLaughlin

I graduated from Plano Senior High School and then attended Texas Tech University. I received my Masters Degree in Teacher Leadership from Lamar University. My family has lived in the Bethany neighborhood for many years and my two children both completed kindergarten through fifth grade at Bethany. PISD provided an excellent education for both my self and my children so that we could fulfill our dreams. I am proud to continue this educational legacy with my students.

I am blessed to teach because it allows me to share in defining moments with my students. Spending my days guiding, encouraging, and challenging students is my joy.

Outside of school, I spend my time enjoying family, friends, hiking, and gardening.
