

Wendy Mullins

I have enjoyed being a part of the Bethany Bunch! This is going to be my fifteenth year teaching in Plano ISD. For my first ten years, I taught at Hickey Elementary, formerly known as Barron Elementary. I have taught fifth, first and kindergarten. I have enjoyed being back in kindergarten.

I was born and raised in Plano. I received my undergraduate degree in interdisciplinary students at Baylor University. I had the privilege of being able to do part of my student teaching in Australia. I quickly returned to Plano to work in the best school district. While working, I pursued my Master's degree in gifted and talented from the University of North Texas.

About me...I am a mom of two beautiful kids, my seven-year old son is in third grade here at Bethany and my five year old daughter is in first grade also here at Bethany. Besides playing with and being with my kids, I enjoy decorating, gardening, shopping, exercising, being with my family, and spending time with my friends.

I am looking forward to an exciting year!
