

Donna Randel-Garrison

My name is Donna Randel-Garrison and I am a Teacher Assistant. I have been an assistant for sixteen years. I am a native New Orleanian. Many of my years of teaching have been at Lincoln Elementary School in Marrero, Louisiana. I have worked three years at Bethany Elementary. I have worked with Special Education students with a range of classifications. I enjoy working with Special Education because it is rewarding. When the students make progress it is due to hard work and determination. I love to see them obtain the necessary learning skills to be able to succeed in life.

I have had training in behavioral and classroom management. I have taken the Praxis Test for my certification as an assistant.

Some of the things I enjoy in life are spending time with my family, cooking, watching T.V., and doing church work.

I am the mother of three daughters and the grandmother of four grandchildren. I have one grandson and three granddaughters.
