## EDITION

### *A Note from our Principal....*

It is very difficult for me to believe, but one fourth of our school year is behind us! It is with the help of our community volunteers, that it has been such a terrific start. It is not however too late to do your part! We have a great deal of time left and many opportunities for all to contribute. As parents, we can support our students and schools in many ways. Each of us has the potential to make a powerful contribution whether it is through the investment of time, financial support, or both. What is important is that you help where you can, and your children see that you care and are willing to do your part. Some of the ways that you can show support are:

- PTA leadership – organizing school wide volunteer efforts
- Grade level volunteer – assisting teachers with tasks that can remove their focus from instruction (some tasks must be completed at school while others can be worked on in your home)
- Library volunteer – assisting students with check-out of books and the librarian with tasks such as shelving
- Office volunteer – helping with Childsafe, distributing mail, or answering phones and greeting visitors while our secretary completes attendance, registration, and withdrawals
- Event volunteer – responding to calls for help at parties, carnivals, or other special events
- Fundraisers – purchasing items or making contributions to allow enhancement of the instructional program and improvement of the school environment
- Positive school-home interactions/communication – maintaining a positive relationship with the school working together to help students succeed (monitoring homework, reading with children, maintaining high academic and behavioral expectations, modeling respect and value for educators, facilitating communication, promoting attendance and responsibility)
