Technology Plan Update Discussion Questions

1. What technology skills are important for your children to have?
2. What technology tools are important for children to have access to in their classroom environment?
3. What school projects involving technology tools did your children enjoy completing?
4. Are there any technology activities your children use at home that you think would be valuable to have at school as well?
5. How would having access to school network resources from home (remote access via the Internet) be helpful? You can review the current offering at <http://mypisd.net>.
6. Are you aware of the Plano ISD eSchool program? What benefits or drawbacks do you see in taking courses online? You can review the current offering at <http://planoisdeschool.net>.
7. What district/school information would be valuable for you to receive via technology access? How would you like to receive it (web site, video broadcast, email, automated phone call, text message, pager, etc.)? Are you aware of Plano ISD's eNews service?
8. What types of e-commerce capabilities would be helpful to you if offered by Plano ISD (e.g. electronic transactions for meals and fees; course registration, student information)?
9. What are your suggestions for funding technology upgrades and improvements?

The current Plano ISD technology plan is at <http://k-12.pisd.edu/techs/TechPlan2000.pdf> for your review. Please email your thoughts on these questions to Jim Hirsch at jhirsch@pisd.edu
